

1 CLICK. 1 VISIT. 1 CAPTURE.

INTRODUCING I-SIGN'S ONLINE INSTRUCTION AND APPOINTMENT BOOKING SYSTEM

Improve conversion rates by booking an appointment at the earliest point in the capture process.

i-sign's leading online appointment booking system allows you to book agent visits for your client on day one of the case. With online access you can book appointments quickly and securely improving client retention and case duration.

The intuitive booking system allows you to:

- book and edit convenient appointment slots for your client
- select multiple availability time slots
- view the case status
- upload and download documentation
- send your client a unique link so they can arrange their own appointment

Once logged in, you can book and view the status of appointments as well as easily transfer documentation fast and securely through one single screen. All documentation, including signed documents, are archived online permitting you to easily access and retrieve information at anytime resulting in quicker return times.

Instant confirmation of the appointment booking is automatically sent to you and your client, by email or SMS message, to ensure all parties are notified of the appointment, resulting in convenient appointments which will ultimately speed up the document sign up process.

i-sign's appointment booking system provides you with seamless outsourcing, as it can be integrated with the leading content management systems. No additional hardware or software is required and all transactions are carried out over secure HTTPS connections, the leading security standard, so you can be assured that data will be secure and only accessible through your unique login.
